**Dear valued patients,**

Given the increase in expenses for our clinic, we will need to increase our private fees as of the 1<sup>st</sup> of June.

Our clinic has applied recent changes to Medicare funding as much as possible, and we are pleased to report that the total overall out of pocket costs for our patients has actually reduced. This has mostly been achieved by bulk billing certain types of services.

However, in order to continue providing our high-quality service, gaps fees remain and need to be adjusted to meet increasing costs and inflation.

We look forward to continuing to provide you with the service you have come to expect.

**Regards,**
